October 3, 2019

Dear Residence,

The City of Williams is currently working on a potable water booster pump that will increase water pressure and supply for the properties south of Hancock Ave. and on and east of S. 2nd St.

The system will be put on-line ***Tuesday, October 15, 2019 at 9:00a.m.*** We will have employees throughout this neighborhood monitoring the pressure increase. We will also be in contact with residence that would allow us to put pressure gauges on their exterior hose bibs; this will help us monitor the system as we increase pressure.

The pressure will be slowly increased over a couple weeks. If you notice any wet areas or leaks please contact City of Williams ASAP. (928) 635-4451

If you have any questions please contact:

Tim Pettit, 928-635-4451 ext. 208 or email; tpettit@williamsaz.gov

Aaron Anderson, 928-635-4451 ext. 252 or email; aanderson@williamsaz.gov

Thank you for your patience.
