F. AGENDA ITEMS

A. *Commissioners to discuss and approve the new sign design at the Visitors Center at 200 W. Railroad Ave. (Michelle Campbell)*

Michelle presented her request for a new sign design to replace what is currently in place. The new design is using the Commissioners recommendation but making a larger sign. Commissioner Holst stated that with the limited space, it might be difficult but he feels it doesn't match what is currently on the building now, such as in a rail station. This design will match the west end signs, and the red on the design will show the original colors. Commissioner Holst mentioned the lettering font with the black and white more authentic to the railroad. He presented a photo of the font style he was referring to and asked if maybe Michelle could change the font to the block style. Michelle stated that she had no issue with changing the font as long as all agreed to the new sign design.

Motion to approve the sign as presented with change to the font style
